Re: Icynene and Uponor Wirsbo PEX

To whom it may concern;

Uponor Wirsbo PEX tubing is an extremely durable tubing product ideal for use in radiant floor heating and plumbing systems. As a result, contact with Icynene light-density foam insulation will not compromise the performance of the tubing or our brass fittings, nor will it void the warranty on AQUAPEX or hePEX tubing. However, this product must not come into contact with our EP fittings. EP fittings should be completely wrapped in poly in areas where any contact is possible.

If you have any questions about this, please don't hesitate to contact me at (800) 321-4739, ext. 5331.

Sincerely,

Elaine E. Hoffman
